Working experience

University Bremen

10/2022–10/2023

Tutor Applied Computer Science

- Object-oriented programming in Java
- Algorithms and data structures in Java

State and University Library Bremen

08/2024–09/2025

Working student

- Back- and frontend development for Pollux project

University Bremen

02/2025–09/2026

Working student

- LaTeX template creation for thesis
- Website maintenance in Typo3
- Python script for lecture scheduling and room assignment

DFKI, Bremen

11/2025–09/2026

Scientific Working student

- Quantum computing research
- An Efficient Encoding for Subset Sum Problem Exploiting QFT-Based Arithmetic Operators, IEEE Quantum Week 2026
- A Constraint-Preserving QAOA Approach to the Flight Gate Assignment Problem

Education

University Bremen

10/2021–10/2024

Bachelor of Science in Mathematics

- Project on optimal assignment of conference attendees to workshops
- Discretization of Geodesic flow on the modular surface using Lie groups
- Application subject computer science

University Bremen

10/2024–pending

Master of Science Mathematics

- Specialization Analysis
- Master thesis on Kernel analog forecasting
- Application subject computer science

Miscellaneous

- StugA Mathematics
- Head of FBMI e.V.
- Winner Bremen Big Data Challenge 2024
- 2nd place Acroba Hackathon 2024

Skills

- German, English
- Python, JavaScript, Rust
- Linux (Debian, Ubuntu, NixOS, Proxmox)
- Docker
- Terraform/OpenTofu
